

Planning outdoor activities in the Fall

... FOLLOW THESE SAFETY GUIDELINES

BEFORE YOU PLAN ACTIVITIES

Review B.C.'s Restart Plan before you consider planning outdoor activities.

MONITOR YOUR HEALTH

Do not leave home if you feel sick.

BE PREPARED

Bring all groceries and supplies for your entire trip and prepare for the unexpected.

WASH YOUR HANDS AND STAY APART

Wash your hands frequently and maintain physical distancing (2 metres or 6 feet) from other individuals you come across.

ACCESSING COMMUNITIES DURING OUTDOOR ACTIVITIES

Do not enter, or stop in, any small communities that do not want visitors.

If you are not confident you can meet all of these conditions, please postpone your trip.
